MEMORANDUM FOR ALL OSAN AB PERSONNEL

FROM: 51 FW/CC

SUBJECT: Osan AB Environmental Policy Statement

1. Osan AB is committed to pollution prevention, compliance with relevant Korean and U.S. environmental requirements, and continual improvement of our environmental programs. Through environmental leadership from our senior management team and unit environmental coordinators, and the combined efforts of every individual, Osan AB will honor its commitment to provide sound stewardship of our land, air, and water.

2. Osan AB uses an Environmental Management System (EMS) structure to manage environmental obligations and programs. The EMS Manual is posted on the Environmental Community of Practice website at:
<https://afkm.wpafb.af.mil/ASPs/CoP/OpenCoP.asp?Filter=OO-MS-PC-32>. The basic tenets of our Environmental Policy Statement include:

a. Compliance with the requirements of USFK PAM 200-1, *Korea Environmental Governing Standards*, is paramount in all we do. Personnel must remain current with required EMS training and carry out duties in accordance with Environmental Management Plans (e.g. Hazardous Materials, Organizational Fuel Tank, Hazardous Waste, and Unit Environmental Coordinator (UEC) EMPs) in the EMS as well as unit environmental SOPs and checklists.

b. Osan continually improves the EMS. Continuous updates, reviews and enhancements improve overall environmental performance and pollution prevention.

c. Compliance with Environmental Policy is the responsibility of every member of the Osan AB community and in accordance with organizational roles and responsibilities. Everyone must understand their role to protect the environment and execute their duties accordingly.

3. Contact your UEC or the 51 CES Environmental Office at DSN 784-4272 if you have any questions or suggestions for improvement.

PATRICK C. MALACKOWSKI, Colonel, USAF
Commander
